

RediSite - Responsive School Websites

Get more control
of your website.

RediSite

Responsive Website Design
and Hosting for Schools

Create a Great-Looking School Website

Affordable and Easy to Maintain

Respond to the mobile requirements of prospects, parents and students with a **RediSite** for your school or district. Your RediSite - a responsive school website from Rediker Software - is optimized to make browsing easy for different devices, from desktop monitors to tablets and smartphones. With a RediSite, your school can have a great-looking, professional website that is mobile-friendly and easy to edit.

One Site for All Devices

There is no need to pay for and maintain a separate site for mobile devices. Your RediSite automatically changes for mobile devices, creating an optimal user experience on any device. Built with mobile in mind, buttons and widgets are designed to be gesture friendly and easy to use with your fingertips.

SIS Integration

Your RediSite includes an all-in-one integration with PlusPortals, Online Admissions Applications, and other Rediker Software products. Visitors can sign in to their Rediker Software Portals account through an encryption protected login form that ensures your parents' and students' information stays secure.

Easy to Edit and Maintain

Your RediSite comes with a powerful built-in CMS (content management system). Access a suite of tools to add, edit and reposition content while maintaining a high level of control over any changes needed for your website, without paying an outside vendor for each task.

Custom Look and Feel

Choose from our different responsive website styles and then customize it to match your existing school's brand. Additional design and creative services are also available.

- ✓ **In-Context Editing**
Browse as a visitor then switch to Edit Mode to make changes.
- ✓ **Event Management**
Manage events and calendar feeds in one centralized interface.
- ✓ **Form Builder**
Website forms can be connected to the AdminPlus Data Base.
- ✓ **ADA Compliance**
Features accommodate assistive technologies like screen readers.
- ✓ **Alert Message**
Add site-wide alerts for important information like school closings.
- ✓ **Blog/News Engine**
Blog pages support comments, tags, social sharing, and more.
- ✓ **Digital File Management**
Features include bulk upload, version control and permissions.
- ✓ **SEO and Google Analytics**
Optimize your website for search engines and track visitor traffic.
- ✓ **E-Commerce***
Sell school merchandise and event tickets through the Store feature.
- ✓ **Social Feeds***
Display Facebook, Twitter and Instagram network feeds.

School Websites That Go Beyond the Basics

ADA-Compliant Tools and Expanded Calendar Features

ADA-Compliant Technology

With tools and technology to achieve and maintain ADA compliance, your school's RediSite will be accessible and usable by students, teachers and families with disabilities. For instance, assistive technologies like screen readers can help the visually impaired navigate your school website.

WCAG 2.0 standards include a checklist of conditions, among them the requirement that a website meet both content and markup areas including:

- Creating alt-text and captions for images
- Semantic markup (code) tools
- Keyboard navigation of the website
- Easy, clear ways to find information

RediSite school websites include all the tools and technology you will need to make sure your website meets WCAG 2.0 standards.

Calendar App

Post school events to your RediSite using our standalone calendar app with built-in support for third-party feeds including the Google Calendar, Outlook and Rediker's PlusPortals. Expanded calendar features include:

- Have one or more calendars for each feed
- Sort calendars by categories or merge multiple feeds into one
- Display by month/week/day, as an accordion list, or as a carousel with side-scroll

Link calendar events to Event Pages where you can add more detailed information, images, slideshows, sponsor lists, and even sell tickets.

“The new site is now live and we are getting rave reviews! It is a real pleasure to be working with such a professional group. Thank you again!”

- Jerry Shipman, Director of Technology,
St. Vincent Pallotti High School, Laurel, MD

RediSite - Responsive School Websites

A Great First Impression

Engage Your School Community

Whether you're a private school looking to draw in more prospective students or a public school looking to engage the community and boost your online presence, a RediSite from Rediker Software can help you create a professional-looking website that makes a great first impression.
