

Using the Rediker ParentPlus App

Rediker does have an App for both iOS and Android platforms. When searching for the app, look for Rediker ParentPlus. The app you want to download is purple and looks like this:

Once the app has been downloaded, it will ask for the name of the school. Enter the following: holyFamilyCatholic. Please be patient, it takes a few moments to access our database. You may receive an alert, however, just click past the alert to access the app. You will notice the name of our school listed on the screen, as Holy Family Catholic School.

You will then enter your username (email address) and password. Lastly, click Login. At this point, you will have access to the app. School wide information will appear on the main page, with your child/children's names will appear across to top.
